

ATTENTION:

The following changes will apply to the 2010 Firewise Incentive Program Grant funding cycle:

Defensible Space Development:

Funding offered for defensible space development has been increased.

Available funding is now \$500 (base) and up to \$2,000 when warranted by specific site conditions.

Water Tanks:

Incentives are now being offered for the purchase and installation of Water-Catchment & Storage Tanks Supplying Water to a Defensible Space Irrigations System.

The new financial incentive is 80% of installation and equipment costs up to \$2,500 when performed in conjunction with Defensible Space Development and Defensible Space Irrigation System. (Please be aware: the maximum individual tank size may not to exceed 5,000 gallons).
