Lane County New System High Level Project Schedule - **Draft**

Lane County New System Project

Phase 3 – Project Schedule Assumptions

- 9 month implementation schedule with Pilot implementation in second quarter of 2008.
- Vendor to hold a series of requirements validation meetings.
- This schedule assumes minor modifications identified during req. val. Meetings.
- Lane County Information Technology staff will support the Vendor during conversion, configuration, and technical training.
- The HSCTS will be frozen and application code changes will not be made after data conversion approach and programs are completed.
- Phase 3 project schedule will reflect all H&HS recognized holidays.
- H&HS will require the Vendor to develop a detailed work plan identifying H&HS staff participation levels throughout the project and specifically for parallel tasks that may require H&HS participation.
- County may contract with an Independent Validation and Verification (IV&V) Vendor for project support.
- All designated H&HS staff will receive training prior to the full implementation of the Vendor solution.

H&HS Participation
