- ❖ Security integration with Vendor systems
- ❖ Audit, Internal Investigation, E-discovery, Records requests and other Security and Audit duties
- ❖ “Securing the Human” initiative

Strategic Plan

“To provide solutions and services that create value for those we serve”

Solutions, Service, Value

- Align technology and services to customer business goals and processes

- Maximize the value of I.T. services

- Capitalize on economies-of-scale

Success through Collaboration

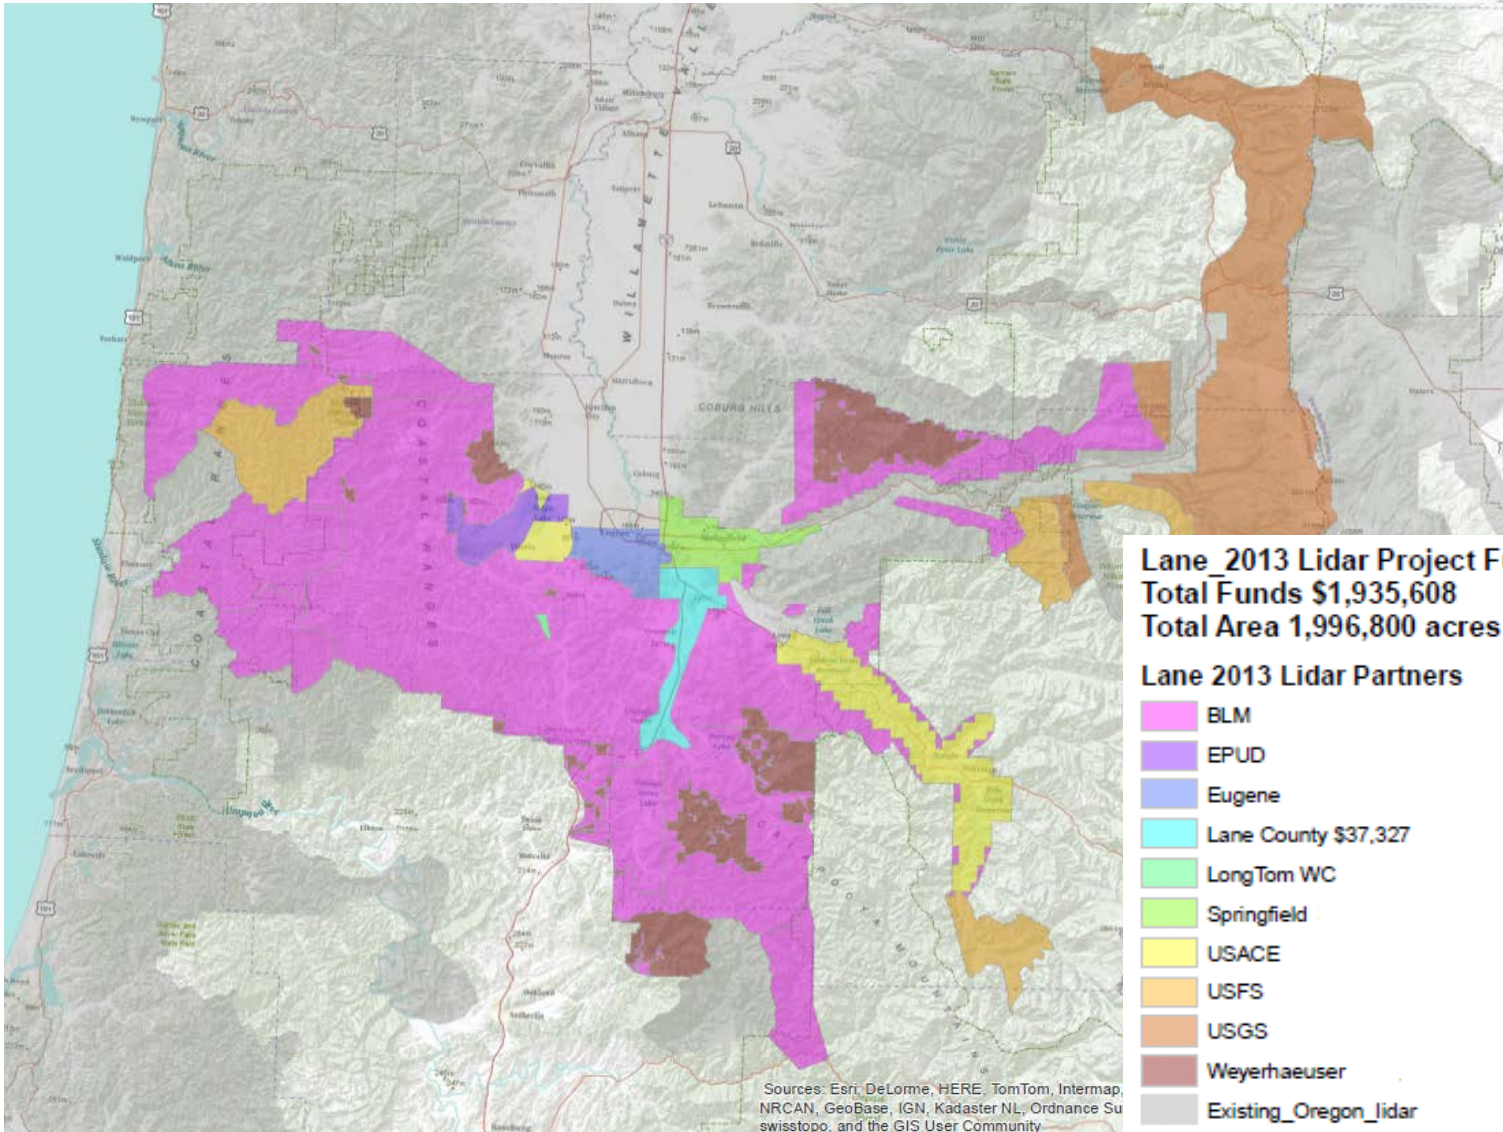

Oregon Association of Government Information Technology Management

We Participate and Present in Regional, State and Professional groups including:

- Regional Information Officers (RIO) steering committee
- Regional GIS steering committee
- Oregon Digital Government Summit
- Lane Radio Interoperability Group (LRIG)
- Public Agency Network - Advisory Committee (PAN)
- Oregon Association of Government Information Technology Management (OAGITM)
- Professional Association for SQL Server (PASS)
- Higher Education User Group (HEUG)
- Oregon Association of County Tax Collectors

Collaboration - FY 13/14 Lidar Project

Lane 2013 Lidar Project Funding
Total Funds \$1,935,608
Total Area 1,996,800 acres

Lane 2013 Lidar Partners

-  BLM
-  EPUD
-  Eugene
-  Lane County \$37,327
-  LongTom WC
-  Springfield
-  USACE
-  USFS
-  USGS
-  Weyerhaeuser
-  Existing_Oregon_lidar

Sustainability through Partnerships

Lane County Current Year Successes

We are proud to have had a role in

Sheriff's Office

- ❖ Law enforcement suite of applications for dispatch, records and jail management

Health & Human Services

- ❖ Electronic Health Records Management System
- ❖ Outfitting of a new Community Health Center

Public Works

- ❖ Park reservation system
- ❖ Surveyor's online data system
- ❖ Cost accounting system

Justice Courts

- ❖ New Courts management system

Lane County Current Year Successes - Continued

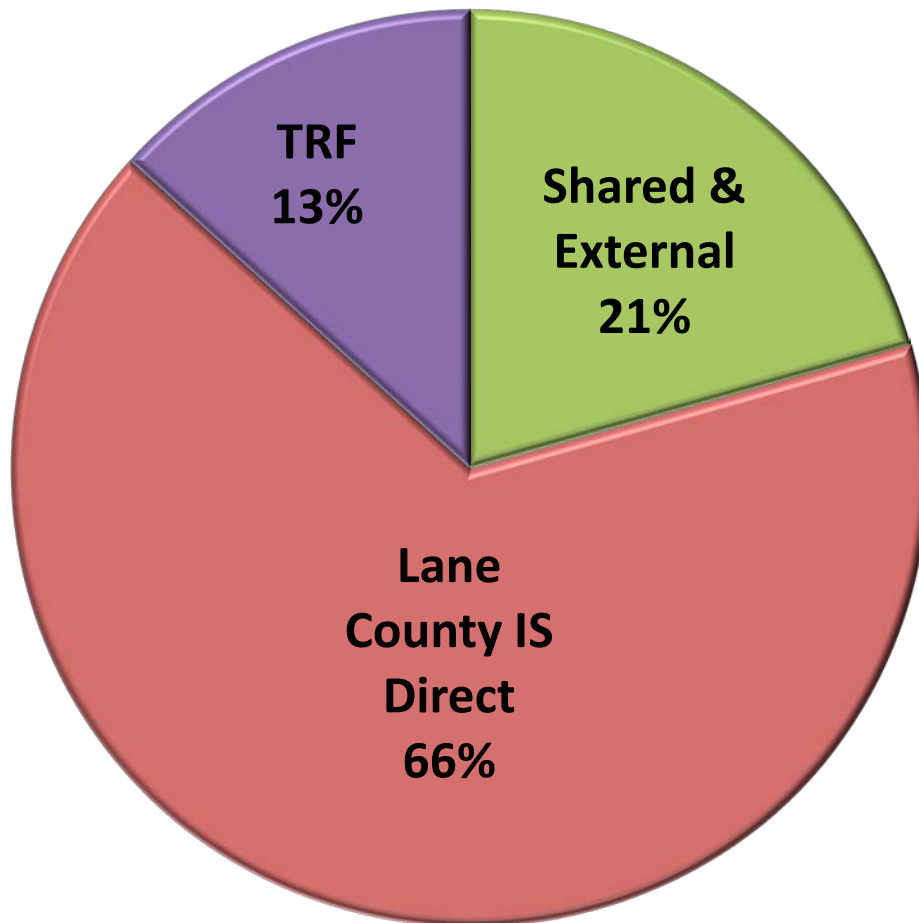

Lane County

- ❖ Centralized billing system
- ❖ Mobile device management
- ❖ Over 20 new map-based applications
- ❖ New online services including appointment scheduling, citizen self-reporting and display of document images
- ❖ Business Intelligence initiatives including new Data Warehouse and Data mining solutions
- ❖ Completion of Windows 7 and Office 2010 upgrades
- ❖ PC and equipment moves supporting several major facility renewal projects
- ❖ Successful completion of AIRS shutdown

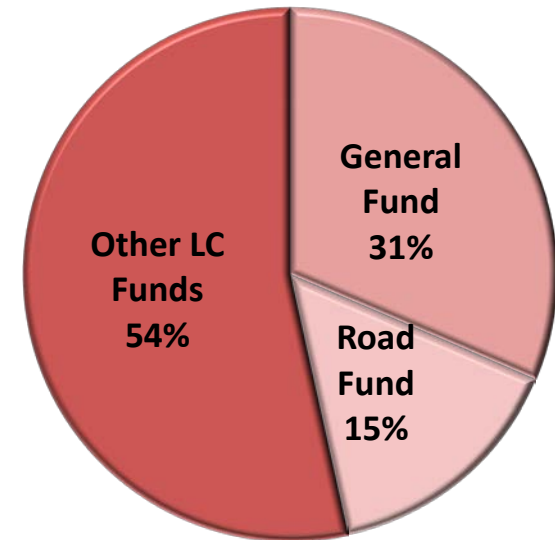

Total Budget

Total IS Budget

Lane County IS Direct

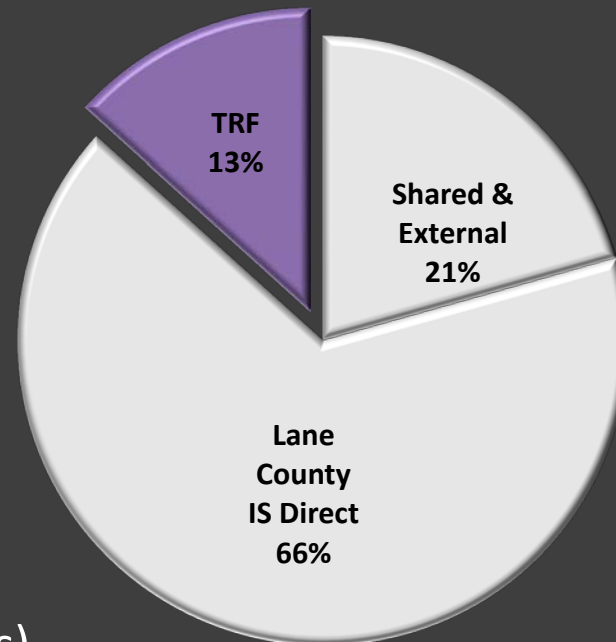

Technology Replacement Fund

Examples include:

- ❖ PC's
- ❖ Servers
- ❖ Network Switches
- ❖ Routers
- ❖ Client Access Licenses (CALs)

Shared & External

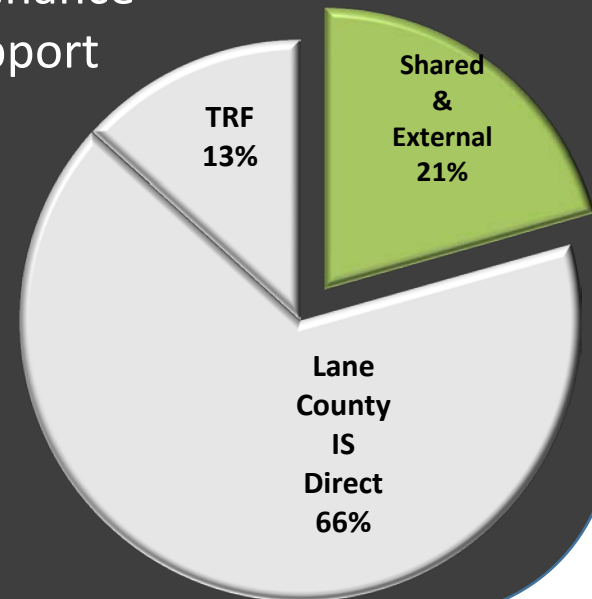

Regional Shared Services

- ❖ Telephones, Data Center, Backups and Recovery, Internet Bandwidth, Cabling & Fiber, much more.

External Services

- ❖ GIS - Tax Map Applications and Map Maintenance
- ❖ Business Applications - Taxation System Support
- ❖ Email and Network Authentication
- ❖ Print Server Services
- ❖ Network Services
- ❖ Secure Remote Access
- ❖ Server Hosting
- ❖ Hosting of Collaboration Tools (SharePoint)

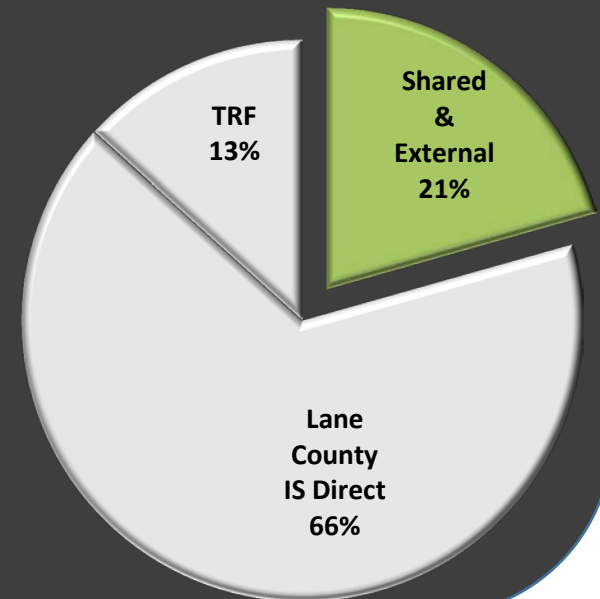

Shared & External

New Services added this year

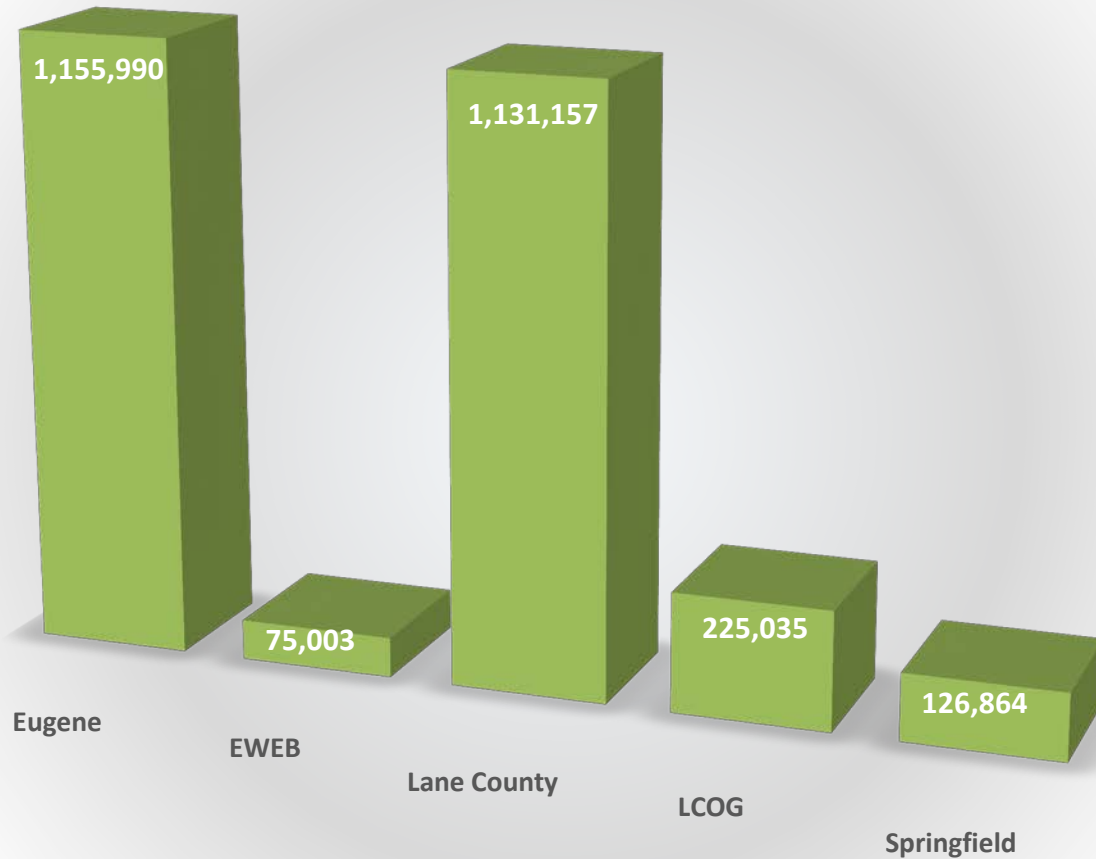

- ❖ Lane Radio Interoperability Group (LRIG) management
- ❖ Public Agency Network maintenance and upgrade
- ❖ City of Springfield Help Desk call-taking and dispatch

Revenue-Shared Services

Regional Shared Services

	Eugene	EWEB	Lane County	LCOG	Springfield
■ \$2,714,049	1,155,990	75,003	1,131,157	225,035	126,864

Revenue-External Services

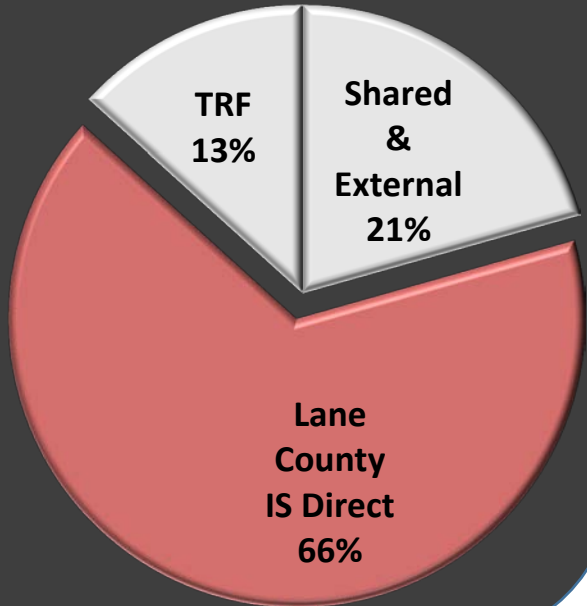

Represents all services provided to Lane County customers

- ❖ Client System Support
- ❖ Enterprise Applications
- ❖ Business Applications
- ❖ Far too many to list

New services added to IS in the Current Fiscal Year

- ❖ Facility-related call-taking and dispatch
- ❖ Door access control

Lane County Direct IS by Fund

Road Fund IS Direct

Geographic Information Systems (GIS)

Transition to a Diverse Funding Model

GIS Customers Across Oregon

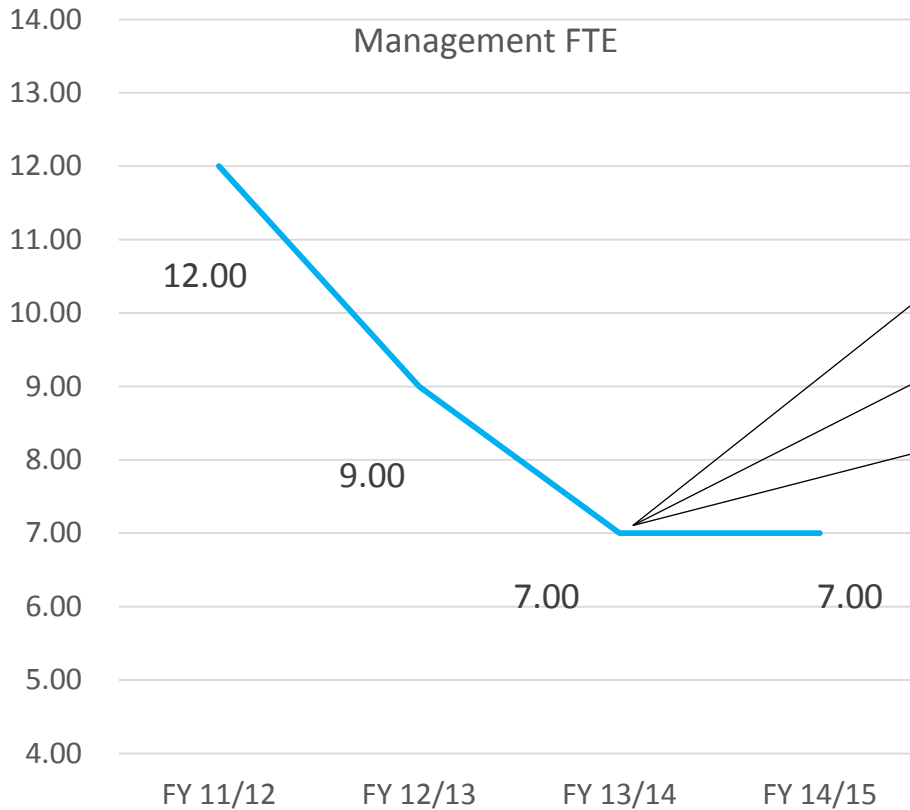

Business Applications Tax Support Customers across Oregon

History of FTE

FTE reallocations in FY 13/14

- 1 FTE moved to PA2 Tax Support
- 1 FTE moved to OA2 Door Access Support
- .5 FTE allocated to LRIG Management

Management Team Staffing

- ❖ 6 Division managers are covering 8 divisions plus .5 FTE for LRIG management
- ❖ Director has been providing .25 FTE for management level security work
- ❖ The current vacancy on the team has caused significant challenges

Security & Audit

- ❖ This division was eliminated in the FY12/13 budget and essential work scattered across staff
- ❖ The division has been reestablished in the FY14/15 proposed budget but no new FTE have been added, so service levels remain at critical needs level only
- ❖ Learning curve is steep and the skills lost in the current vacancy by management level work has increased risk to the organization

Growing interest in additional service expansion from Oregon public agencies:

- ❖ GIS
- ❖ Assessment and Taxation support
- ❖ Data center hosting
- ❖ HR, payroll, and financial system hosting
- ❖ Applications co-development
- ❖ Co-location of data center services for disaster recovery and business continuity.

Projects coming in FY 14/15

There are many exciting projects coming in the new Fiscal Year including:

- ❖ SharePoint 2013 intranet upgrade
- ❖ Datacenter remodel
- ❖ New virtual server hosting environment
- ❖ New Business Intelligence initiatives (data modeling, reporting and dashboards)
- ❖ Infrastructure upgrades (firewall, proxy)
- ❖ Exchange upgrade
