Technology Program

Tech students have all successfully disassembled their computers and begun identifying and learning about the internal components. The coming week will be devoted to testing and cleaning those components, and we will probably start the re-assembly process late in the week.

Culinary Arts and Horticulture

Horticulture Crew again teamed up with Culinary Arts Crew for another very successful day, at the Lane County Farmer's Market! Please come down and see us, we're serving up a delicious lunch and you can buy your organic produce for the week!

BREAKING NEWS

HORTICULTURE CREW

Crews continued to clear trails in the *Three Sisters* wilderness area, for the United States Forest Service, and crew perform trail maintenance for the Bureau of Land Management's Off Highway Vehicle System. Additionally, crews have been cleaning up after the UO home games and weed-eating exotic blackberries for our local City of Eugene Parks.....

HORTICULTURE Anecdote

"I don't get out to all of the parks these days, but I did stop Wendover Park last week. It looked great!! Thanks so much for all of your hard work. Even the pile of black locust was stacked really well for chipping. Great Job!"

John Clark
City of Eugene
