CASE NUMBER: 09-5763

DATE/TIME OF INCIDENT: 07-26-09, 5:00 pm

DATE/TIME OF RELEASE: 08-13-09 4:00 pm

NATURE OF STORY: Death Investigation

**INVOLVED: Lisa R. Grange, 50
Curt L. Roberts, 45**

DETAILS:

On July 26, 2009 the bodies of Lisa Grange and Curt Roberts were discovered in their home on Lancaster Drive. In the days following the discovery of the bodies, medical and scene investigations were conducted. These initial inquiries were inconclusive in determining what caused the deaths.

Blood samples taken at the time of autopsy have been analyzed and the Medical Examiner has reached a conclusion. Grange and Roberts died as a result of an overdose of prescription pain medication. The deaths have been ruled accidental; there is no indication that Grange or Roberts took their own lives or that any criminal activity was involved. The medication involved had been legally prescribed.

While it is certainly unusual that two persons would die in this manner, the absence of any other suspicious or irregular observations or information does not contradict the medical conclusion. This finding concludes the investigation into the incident.
