Brief Overview of the Equity and Access Advisory Board

Background

In 2014, Lane County received a community request to re-establish the Human Rights Advisory Committee. The Board of Commissioners subsequently established a Lane County Strategic Plan for 2014-2017 that included priorities and goals that focus on improving equity and access. The County Administrator and Interim Director of Operations participated in a series of meetings with community members that led to a larger community conversation. In April and June, community members and county staff examined current efforts, as well as needs and plans around human rights, equity, diversity, inclusion, and access. Those who participated in the meetings identified needs in equity work across the county as well as which gaps the county had a role in filling.

The top three priorities identified by community stakeholders were:

1. Improve recruitment, retention and advancement
2. Establish a culture in Lane County that:
   a. Is asking tough questions (hard diversity vs. soft diversity)
   b. Gets at the real issues
   c. Is addressing the moral/professional/ethical commitment to equity and inclusion
   d. Engages in courageous conversations
3. Institutionalization of equity work

With direction from the Board of County Commissioners, the County Administrator and Director of Operations formed a task team to help craft the creation of the Equity and Access Advisory Board. The task team developed the conceptual framework for the Advisory Board and drafted bylaws outlining specific goals, objectives and actions for the Advisory Board.

On April 5, 2016, the Lane County Equity and Access Advisory Board was created by an order passed by the Board of County Commissioners. On February 7, 2017, the Lane County Equity and Access Advisory Board held its first meeting.

The creation and passage of the 2018-2021 Lane County Strategic Plan created includes support of the Equity and Access Advisory Board as well as continuing to support equity initiatives throughout the organization.

Role of the Lane County Equity and Access Advisory Board

The Advisory Board will address potential issues through education, research, advocacy and/or intervention while working to be a good community partner. The County Administrator will make no less than two formal progress reports to the Board of County Commissioners per year related to the work of the Advisory Board.
In the first year of its inception, the Advisory Board focused on a pre-approved work plan, which included three of the five priorities identified by the Equity and Access task team. In subsequent years, the Advisory Board has developed an annual work plan in consultation with the County Administrator and the Equity and Access Coordinator.

The Advisory Board will advocate for and take positive action toward the execution of their work plan. The Advisory Board will work to develop measurable, time specific objectives to achieve the goals outlined in the work plan. The Advisory Board will designate an annual retreat for planning its goals and objectives and reviewing its prior year performance.
