AGENDA COVER MEMO

DATE: April 18, 2003
TO: Lane County Board of Commissioners
FROM: Public Works, Engineering
PRESENTED BY: Sonny P. A. Chickering
County Engineer

AGENDA

ITEM TITLE: In the Matter of Awarding a Contract to Wildish Building Material Co., dba Wildish Sand & Gravel Co., in the Amount of \$165,793.67, for Oil Rock and Sanding Rock Production, Various Stockpile Sites, Prospective Contract No. 02/03-09

I. MOTION

THAT THE ATTACHED BOARD ORDER TO BE ADOPTED TO: AWARD THE CONTRACT FOR OIL ROCK AND SANDING ROCK PRODUCTION VARIOUS STOCKPILE SITES, TO WILDISH BUILDING MATERIAL CO., DBA WILDISH SAND & GRAVEL CO., IN THE AMOUNT OF \$165,793.67; DIRECT THAT THE CONTRACT BE EXECUTED IN ACCORDANCE WITH THE BID SPECIFICATIONS; AUTHORIZE THE COUNTY ADMINISTRATOR TO SIGN THE CONTRACT; AND REQUIRE THE CONTRACTOR TO PRESENT A PERFORMANCE BOND AND PAYMENT BOND IN THE FULL AMOUNT OF THE CONTRACT.

II. ISSUE OR PROBLEM

Should the Board award a contract to Wildish Building Material Co., dba Wildish Sand & Gravel Co., for furnishing, hauling and stockpiling oil rock aggregate at various sites throughout the County.

III. DISCUSSION

A. Background.

Through approval of the fiscal year 2002-2003 Lane County budget, the Board has authorized funding to obtain rock for use in road maintenance activities.

B. Analysis.

This contract provides for furnishing, hauling and stockpiling 4,100 tons of 3/8"- #10 oil aggregate in stockpile, 4,700 tons of pre-coated 3/8"- #10 oil aggregate in stockpile, 200 tons of 1/4"- #10 sanding aggregate in stockpile, and all other related work and materials as called for in the plans and specifications for

stockpiling at various sites all in Lane County, Oregon. The oil rock will be used in the County's chip sealing program. Locating the oil rock in several locations reduces the expense of transporting material long distances to work sites. Stockpile sites ensure that the appropriate materials are available when needed.

C. Alternatives/Options.

The oil rock aggregate could be purchased on an as needed basis. However, using a private contractor to haul oil rock to stockpile sites early in the year makes for a more efficient operation. During the summer, trucking is at a premium, private haulers may not be available and using County forces to haul rock long distances to project sites slows work. The proposed stockpiling acquisition method is more cost effective and helps ensure the availability of material when we need it.

D. Recommendation.

Award this contract to the low qualified bidder.

IV. IMPLEMENTATION/FOLLOW-UP

Upon approval by the Board, this contract will be processed and all required security bonds will be obtained.
