(k) The Director shall require as a condition of approval that the landowner for the dwelling sign and record in the Lane County deed records a document binding the landowner, and the landowner's successors in interest, prohibiting them from pursuing a claim for relief or cause of action alleging injury from farming or forest practices for which no action or claim is allowed under ORS 30.936 or 30.937.

(7) **Large Tract Dwelling.** One single family dwelling or manufactured dwelling is allowed subject to prior submittal of an application pursuant to LC 14.050, approval of the application pursuant to LC 14.100 with the options for the Director to conduct a hearing or to provide written notice of the decision and an opportunity for appeal, and compliance with the general provisions and exceptions in LC Chapter 16, LC 16.211(7)(a) through (f) and LC 16.211(8) below.

(a) "Tract" means one or more contiguous lots or parcels in the same ownership. A tract shall not be considered to consist of less than the required acreage because it is crossed by a public road or waterway.

(b) Is sited on a tract that does not contain a dwelling or manufactured dwelling.

(c) Is sited on a tract that:

(i) Contains at least 160 contiguous acres; or

(ii) Contains at least 200 acres in one ownership that are not contiguous but are in the same county or adjacent counties and zoned for forest use.

(d) Prior to land use clearance of a building permit for the dwelling or manufactured dwelling, when the lot or parcel where the dwelling or manufactured dwelling will be located is part of a tract, the covenants, conditions and restrictions form adopted as Exhibit A in OAR 660-006-027(6)(a) shall be completed and recorded by the property owner in Lane County Deeds and Records and a copy of the recorded instrument provided to the Director. The covenants, conditions and restrictions in the deed restriction:

(i) Shall be irrevocable, unless a statement of release is signed by the Director;

(ii) May be enforced by the Department of Land Conservation and Development or by Lane County; and

(iii) Shall, together with a map or other record depicting any tract which does not qualify for a dwelling, be maintained in the Department records and be readily available to the public. The failure to follow the requirements of LC 16.211(7)(d) above shall not affect the validity of the transfer of property or the legal remedies available to the buyers of the property which is the subject of the covenants, conditions and restrictions required by this subsection.

(e) Approval of a dwelling or manufactured dwelling shall comply with the requirements in LC 16.211(7)(e)(i) through (iv) below:

(i) The owner of the tract shall plant a sufficient number of trees on the tract to demonstrate that the tract is reasonably expected to meet Department of Forestry stocking requirements at the time specified in Department of Forestry administrative rules;

(ii) The Director shall notify the County Assessor of the above condition at the time the dwelling is approved;

(iii) If the lot or parcel is more than ten acres, the property owner shall submit a stocking survey report to the County Assessor and the Assessor will verify that the minimum stocking requirements have been met by the time required by Department of Forestry rules; and

(iv) If the Department of Forestry determines that the tract does not meet those requirements and notifies the owner and the Assessor that the land is not being managed as forest land, the Assessor will remove the forest land designation pursuant to ORS 321.359 and impose the additional tax pursuant to ORS 321.372.

(f) Land use approval of a permit described in LC 16.211(7) above shall be valid for four years from the date of the approval. Notwithstanding the requirements in LC 14.700(2)(d)(ii) and (iii), an application for a two year extension of the timelines

for the permit approval described in LC 16.211(7)(f) above may be made and approved pursuant to LC 14.700(2).

(g) The Director shall require as a condition of approval that the landowner for the dwelling sign and record in the Lane County deed records a document binding the landowner, and the landowner's successors in interest, prohibiting them from pursuing a claim for relief or cause of action alleging injury from farming or forest practices for which no action or claim is allowed under ORS 30.936 or 30.937.

(8) Siting Standards for Dwellings, Structures and Other Uses. The following siting standards shall apply to all new dwellings, manufactured dwellings and structures, and other uses as specified above in LC 16.211(2)(h) and (j), and in LC 16.211(3) through (7) above. These standards are designed to make such uses compatible with forest operations and agriculture, to minimize wildfire hazards and risks and to conserve values found on forest lands. The standards in LC 16.211(8)(a)-through(b) below shall be weighed together with the requirements in LC 16.211(8)(c) and (e) below to identify the building site.

(a) Setbacks. Residences, dwellings or manufactured dwellings and structures shall be sited as follows:

(i) Near dwellings or manufactured dwellings on other tracts, near existing roads, on the most level part of the tract, on the least suitable portion of the tract for forest use and at least 30 feet away from any ravine, ridge or slope greater than 40 percent;

(ii) With minimal intrusion into forest areas undeveloped by non-forest uses; and

(iii) Where possible, when considering LC 16.211(8)(a)(i) and (ii) above and the dimensions and topography of the tract, at least 500 feet from the adjoining lines of property zoned F-1 and 100 and at least 30 feet from the adjoining lines of property zoned F-2 or EFU; and

(iv) The riparian setback area shall be the area between a line 100 feet above and parallel to the ordinary high water of a Class I stream designated for riparian vegetation protection in the Rural Comprehensive Plan. No structure other than a fence shall be located closer than 100 feet from ordinary high water of a Class I stream designated for riparian vegetation protection by the Rural Comprehensive Plan. A modification to the riparian setback standard for a structure may be allowed provided the requirements of LC 16.253(3) are met; and

(v) Structures other than a fence or sign shall not be located closer than:

(aa) 20 feet from the right-of-way of a state road, County road or a local access public road specified in Lane Code LC Chapter 15; and

(bb) 30 feet from all other property lines; and

(cc) The minimum distance necessary to comply with LC 16.211(8)(a) above and LC 16.211(8)(b) through (d) below.

(b) The amount of forest lands used to site access roads, service corridors and structures shall be minimized.

(c) Fire Siting Standards. The following fire-siting standards or their equivalent shall apply to new residences, dwellings, manufactured dwellings or structures:

(i) Fuel-Free Breaks. The owners of dwellings, manufactured dwellings and structures shall maintain a primary safety zone surrounding all structures and clear and maintain a secondary fuel break on land surrounding the dwelling or manufactured dwelling that is owned or controlled by the owner in compliance with these requirements.

(aa) **Primary Safety Zone.** The primary safety zone is a fire break extending a minimum of 30 feet in all directions around dwellings, manufactured dwellings and structures. The goal within the primary safety zone is to exclude fuels that will produce flame lengths in excess of one foot. Vegetation within the primary safety zone could include green lawns and low shrubs (less than 24 inches in height). Trees shall be spaced with greater than 15 feet between the crown and pruned to remove dead and low (less than eight feet) branches. Accumulated leaves, needles, and other dead vegetation shall be removed from beneath trees. Nonflammable materials (i.e., rock) instead of flammable materials (i.e., bark mulch) shall be placed next to the house.

As slope increases, the primary safety zone shall increase away from the house, parallel to the slope and down the slope, as shown in the table below:

Size of the Primary Safety Zone by Percent Slope		
% Slope	Feet of Primary Safety Zone	Feet of Additional Safety Zone Down Slope
0	30	0
10	30	50
20	30	75
25	30	100
40	30	150

Dwellings or manufactured dwellings shall not be sited on a slope greater than 40 percent.

(bb) **Secondary Fuel Break.** The secondary fuel break is a fuel break extending a minimum of 100 feet in all directions around the primary safety zone. The goal of the secondary fuel break is to reduce fuels so that the overall intensity of any wildfire would be lessened and the likelihood of crown fires and crowning is reduced. Vegetation within the secondary fuel break shall be pruned and spaced so that fire will not spread between crowns of trees. Small trees and brush growing underneath larger trees shall be removed to prevent spread of fire up into the crowns of the larger trees. Dead fuels shall be removed.

(ii) **Structural Fire Protection.** The dwelling or manufactured dwelling shall be located upon a parcel within a fire protection district or shall be provided with residential fire protection as evidenced by a long term contract with a fire protection district (FPD) recorded in Lane County Deeds and Records. If the dwelling or manufactured dwelling are not within a FPD, the applicant shall provide evidence that the applicant has submitted a written request for a long term services contract with the nearest FPD and to be annexed into the FPD boundaries. If the FPD and the Planning Director determine that inclusion within a FPD or contracting for residential fire protection is impracticable, the Planning Director shall require as a condition of approval for the dwelling or manufactured dwelling that the property owner implement and maintain a Fire Protection Plan as an alternative means for protecting the dwelling or manufactured dwelling from fire hazards, consistent with the following standards:

(aa) Implementation and maintenance in perpetuity of a 100-foot wide primary safety zone surrounding the perimeter of the dwelling or manufactured dwelling structures in compliance with the standards in LC 16.211(c)(i)(aa) above; and

(bb) An external, fire protection system as a component to the equivalent Fire Protection Plan to mitigate the threat to the dwelling and residential structures by a seasonal wildfire or the threat to the forest resource base from a fire originating on the parcel in compliance with the following standards:

(A) Provide a minimum of two all-weather, one-inch valve, fire hydrants and two fire hose reels with sufficient length of fire suppression hose at each hydrant to reach around fifty percent of the exterior of the dwelling and residential accessory structures. The hose reels shall be installed between 50-75 feet from the structure foundations. The minimum fire hose interior diameter shall be one-inch;

(B) Provide a fire nozzle with each fire hose with multiple settings to allow stream, spray and fog applications of water on the exterior of the structures and landscape;

(C) Provide and annually maintain a water supply and pumping system connected to the fire hydrants in compliance with the following minimum requirements: a swimming pool, pond, lake or similar body of water that at all times contains a minimum of 4,000 gallons of water; or a stream that has a continuous year-round flow of at least one cubic foot per second; or a 1,500-gallon storage tank, e.g., concrete septic tank connected to an operating groundwater well for refilling; or a high-yield groundwater well with a minimum yield of 30 gallons per minute for one hour; and a pump system capable of maintaining 80 psi line pressure to the two fire hydrants.

(cc) The property owner shall provide verification from the Water Resources Department that any permits or registrations required for water diversions have been obtained or that such permits or registrations are not required under state law for the use; and

(dd) Road or driveway access to within 15 feet of the water supply shall be provided for pumping units. The road or driveway access shall accommodate the turnaround of fire fighting equipment during the fire season. Permanent signs shall be posted along the access route to indicate the location of the emergency water source.

(iii) Chimneys and Roofs. Dwellings, manufactured dwellings or structures with any chimneys shall have a spark arrestor on the chimneys. All habitable roofed structures shall be regulated by the State of Oregon Structural Specialty Code or the State of Oregon One and Two Family Specialty Code. Roofing for dwellings and manufactured dwellings shall be asphalt shingles in accordance with Section 903, slate shingles in accordance with Section 904, metal roofing in accordance with Section 905, tile, clay or concrete shingles in accordance with Section 907 and other approved roofing which is deemed to be equivalent to Class C rated roof covering. Wood shingles and shake roofs are not permitted. When 50 percent or more of the roof covering of any one or two family dwelling or manufactured dwelling is repaired or replaced in one year, the roof covering shall be made to comply with this section.

(d) Domestic Water Supplies. Evidence shall be provided that the domestic water supply is from a source authorized in accordance with the Water Resources Department's administrative rules for the appropriation of ground water or surface water and not from a Class II stream as defined in the Forest Practices Rule, OAR Chapter 629. If the water supply is unavailable from public sources or sources located entirely on the property, then the applicant shall provide evidence that a legal easement has been obtained permitting domestic water lines to cross the properties of affected owners. For purposes of LC 16.211(8)(d) above, evidence of domestic water supply means:

(i) Verification from a water purveyor that the use described in the application will be served by the purveyor under the purveyor's rights to appropriate water; or

(ii) A water use permit issued by the Water Resources Department for the use described in the application; or

(iii) Verification from the Water Resources Department that a water use permit is not required for the use described in the application. If the proposed water supply is from a well and is exempt from permitting requirements under ORS 537.545, the applicant shall submit the well constructor's report to the Department upon completion of the well.

(e) Fire Safety Design Standards for Roads and Driveways. Private driveways, roads or bridges accessing only commercial forest uses are not subject to compliance with these fire safety design standards for roads and driveways. The route of access for fire fighting equipment, from the fire station to the destination point, across public roads, bridges, private roads or private access easements and driveways shall comply with the standards specified below in LC 16.211(8)(e). Evidence of compliance with the standards specified in LC 16.211(8)(e) below should include objective information about the fire fighting equipment, the physical nature of the access route, the nature of any proposed improvements to the access route, and it may also include a written verification of compliance from the agency providing fire protection, or a written certification of compliance from an Oregon Registered Professional Engineer. As used herein, "road" means a way of access used for more than one use and accessory uses dwelling or manufactured dwelling. As used herein, "driveway" means a way of access used for only one dwelling or manufactured dwelling.

(i) Road and Driveway Surfaces. Roads shall have unobstructed widths of at least 20 feet including: travel surfaces with widths of at least 16 feet constructed with gravel to a depth sufficient to provide access for fire fighting vehicles and containing gravel to a depth of at least six-inches or with paving having a crushed base equivalent to six inches of gravel, an unobstructed area two feet in width at right angles with each side of the constructed surface, curve radii of at least 50 feet, and a vertical clearance of at least 13 feet 6 inches. Driveways shall have: constructed widths of at least 12 feet with at least six inches of gravel or with paving having a crushed base equivalent to six inches of gravel and shall have a vertical clearance of 13 feet 6 inches.

(ii) Turnarounds. Any dead-end road over 200 feet in length and not maintained by Lane County shall meet these standards for turnarounds. Dead-end roads shall have turnarounds spaced at intervals of not less than 500 feet. Turnarounds shall comply with these design and construction standards:

(aa) Hammerhead Turnarounds. Hammerhead turnarounds (for emergency vehicles to drive into and back out of to reverse their direction on the road) shall intersect the road as near as possible at a 90 degree angle and extend from the road at that angle for a distance of at least 20 feet. They shall be constructed to the standards for driveways in LC 16.211(8)(e)(i) above and shall be marked and signed by the applicant as "NO PARKING." Such signs shall be of metal or wood construction with minimum dimensions of 12 inches by 12 inches; or

(bb) Cul-de-sac Turnarounds. Cul-de-sac turnarounds shall have a right-of-way width with a radius of at least 45 feet and an improved surface with a width of at least 36 feet and shall be marked and signed by the applicant as "NO PARKING." Such signs shall be of metal or wood construction with minimum dimensions of 12 inches by 12 inches; and

(cc) No cul-de-sacs or hammerhead turnarounds shall be allowed to cross any slope which will allow chimney-effect draws unless the dangerous effects of the chimney-effect draws have been mitigated by the location of the road and, where necessary, by the creation of permanent fire breaks around the road.

(iii) Bridges and Culverts. Bridges and culverts shall be constructed to sustain a minimum gross vehicle weight of 50,000 lbs. and to maintain a minimum 16-foot road width surface or a minimum 12-foot driveway surface. The

Planning Director may allow a single-span bridge utilizing a converted railroad flatcar as an alternative to the road and driveway surface width requirements, subject to verification from a engineer licensed in the State of Oregon that the structure will comply with the minimum gross weight standard of 50,000 lbs.

(iv) **Road and Driveway Grades.** Road and driveway grades shall not exceed 16 percent except for short distances when topographic conditions make lesser grades impractical. In such instances, grades up to 20 percent may be allowed for spans not to exceed 100 feet. An applicant must submit information from a Fire Protection District or engineer licensed in the State of Oregon demonstrating that road and driveway grades in excess of eight percent are adequate for the fire fighting equipment of the agency providing fire protection to access the use, fire fighting equipment and water supply.

(v) **Identification.** Roads shall be named and addressed in compliance with LC 15.305 through 15.335.

(vi) **Driveway Vehicle Passage Turnouts.** Driveways in excess of 200 feet shall provide for a 20-foot long and eight-foot wide passage space (turn out) with six inches in depth of gravel and at a maximum spacing of 400 feet. Shorter or longer intervals between turnouts may be authorized by the Planning Director where the Director inspects the road and determines that topography, vegetation, corners or turns obstruct visibility.

(vii) **Modifications and Alternatives.** The standards in LC 16.211(8)(e)(i) through (vi) above may be modified by the Approval Authority provided the applicant has submitted objective evidence demonstrating that an alternative standard would insure adequate access for fire fighting equipment from its point of origination to its point of destination.

(9) **Other Development Standards.**

(a) **Maintenance, Removal and Replacement of Indigenous Vegetation within the Riparian setback area.** Maintenance, removal and replacement of indigenous vegetation within the riparian setback area along Class I streams designated for riparian vegetation protection by the Comprehensive Plan must comply with the provisions of LC 16.253(2).

(b) **Signs.**

(i) Signs shall not extend over a public right-of-way or project beyond the property line.

(ii) Signs shall not be illuminated or capable of movement.

(iii) Signs shall be limited to 200 square feet in area.

(10) **Area.** The minimum area requirement for the division of land is 80 acres subject to compliance with the requirements of LC Chapter 13 for submission, review and approval of preliminary and final partition or subdivision plans except as follows:

(a) A parcel containing less than 80 acres may be allowed to facilitate a forest practice as defined in ORS 527.620 subject to compliance with the following requirements:

(i) There are unique property specific characteristics present in the proposed parcel that require an amount of land smaller than 80 acres in order to conduct the forest practice;

(ii) The parcel shall not be eligible for siting a new dwelling;

(iii) The parcel shall not serve as the justification for the siting of a future dwelling on other lots or parcels;

(iv) Shall not result in a parcel of less than 35 acres, except:

(aa) Where the purpose of the land exchange is to facilitate an exchange of lands involving a governmental agency; or

(bb) Where the purpose of the land division is to allow transactions in which at least one person has a cumulative ownership of at least 2,000 acres of forest land located in Lane County or a county adjacent to Lane County;

(v) If associated with the creation of a parcel where a dwelling or manufactured dwelling is involved, the parcel containing the dwelling or manufactured dwelling shall contain at least 80 acres;

(vi) Shall not, as the result of the land division, be used to justify the re-designation or rezoning of resource lands; and

(vii) A landowner allowed a land division under LC 16.211(10)(a) above shall sign a statement that shall be recorded with the Lane County Clerk declaring that the landowner will not in the future complain about accepted farming or forest practices on nearby lands devoted to farm or forest use.

(viii) LC Chapter 13 for submission, review and approval of preliminary and final partition or subdivision plans.

(b) New land divisions less than the 80 acre parcel size required by LC 16.211(10) above are allowed for the uses listed in LC 16.211(2)(i) and (j), LC 16.211(3)(a) through (k) and LC 16.211(3)(a-a) through (d-d) above, in compliance with these requirements:

(i) Such uses have been approved pursuant to LC 16.211(2)(i) and (j), LC 16.211(3)(a) through (k) and LC 16.211(3)(a-a) through (d-d) above;

(ii) The parcel created for such use is the minimum size necessary for the use;

(iii) A landowner allowed a land division under LC 16.211(10)(b) above shall sign a statement that shall be recorded with the Lane County Clerk declaring that the landowner will not in the future complain about accepted farming or forest practices on nearby lands devoted to farm or forest use;

(iv) LC Chapter 13 for submission, review and approval of preliminary and final partition or subdivision plans.

(c) A division of a lot or parcel for an existing dwelling or manufactured dwelling subject to compliance with these requirements:

(i) The parcel established for the existing dwelling or manufactured dwelling shall not be larger than five acres, except as necessary to recognize physical features such as roads or streams, in which case the parcel shall not be larger than 10 acres;

(ii) The dwelling or manufactured dwelling lawfully existed prior to June 1, 1995;

(iii) The remaining parcel not containing the dwelling or manufactured dwelling shall:

(aa) contain at least 80 acres; or

(bb) be consolidated with another parcel, and together the parcels contain at least 80 acres.

(iv) An application for the creation of a parcel pursuant to LC 16.211(10)(c) above shall provide evidence that a restriction on the remaining parcel, not containing the dwelling or manufactured dwelling, has been recorded with Lane County Deeds and Records. The restriction shall allow no dwellings or manufactured dwellings unless authorized by law or goal on land zoned for forest use except as allowed under LC 16.211(10)(c) above. This restriction shall be irrevocable unless a statement of release is signed by the Planning Director indicating that the Lane County Rural Comprehensive Plan or land use regulations applicable to the property have been changed in such a manner that the parcel is no longer subject to statewide planning goals pertaining to agricultural land or forest land;

(v) A landowner allowed a land division under LC 16.211(10)(c) above shall sign a statement that shall be recorded with Lane County Deeds and Records declaring that the landowner will not in the future complain about accepted farming or forest practices on nearby lands devoted to farm or forest use;

(vi) LC Chapter 13 for submission, review and approval of preliminary and final partition or subdivision plans; and

(vii) The Planning Director shall maintain a record of parcels that do not qualify for the siting of a new dwelling or manufactured dwelling under restrictions imposed by LC 16.211(10)(c) above. The record shall be readily available to the public.

(d) A division of a lot or parcel for at least two existing dwellings or manufactured dwellings subject to compliance with these requirements:

(i) At least two dwellings or manufactured dwellings lawfully existed on the lot or parcel prior to November 4, 1993;

(ii) Each dwelling or manufactured dwelling complies with the requirements for a replacement dwelling or manufactured dwelling in LC 16.211(4)(a) or (b) above;

(iii) Except for one lot or parcel, each lot or parcel created under LC 16.211(10)(d) above is between two and five acres in size;

(iv) At least one dwelling or manufactured dwelling is located on each lot or parcel created under LC 16.211(10)(d) above;

(v) The land owner of a lot or parcel created under LC 16.211(10)(d) above shall provide evidence that a restriction prohibiting the landowner and the landowner's successors in interest from further dividing the lot or parcel has been recorded with Lane County Deeds and Records. This restriction shall be irrevocable unless a statement of release signed by the Planning Director indicating that the Lane County Rural Comprehensive Plan or land use regulations applicable to the property have been changed in such a manner that the parcel is no longer subject to statewide planning goals protecting forest land or unless the land division is subsequently authorized by law or by a change in a statewide planning goal for land zoned for forest use or mixed farm and forest use; and

(vi) The Planning Director shall maintain a record of parcels that do not qualify for the siting of a new dwelling or manufactured dwelling under restrictions imposed by LC 16.211(10)(d)(v) above. The record shall be readily available to the public.

(11) Youth Camps. The purpose of LC 16.211(11) below is to provide for the establishment of a youth camp that is generally self-contained and located on a parcel suitable to limit potential impacts on nearby and adjacent land and to be compatible with the forest environment. A "youth camp" is a facility either owned or leased, and operated by a state or local government, or a nonprofit corporation as defined under ORS 65.001, to provide an outdoor recreational and educational experience primarily for the benefit of persons twenty-one (21) years of age and younger. Youth camps do not include any manner of juvenile detention center or juvenile detention facility. The provisions of LC 16.211(11) below do not apply to youth camps established prior to June 14, 2000. An application for a youth camp shall comply with these requirements:

(a) The number of overnight camp participants that may be accommodated shall be determined by the Approval Authority based on the size, topography, geographic features and any other characteristics of the proposed site for the youth camp. Except as provided by LC 16.211(11)(b) below, a youth camp shall not provide overnight accommodations for more than 350 youth camp participants, including staff;

(b) The Approval Authority may allow up to eight (8) nights during the calendar year when the number of overnight participants may exceed the total number of overnight participants allowed under LC 16.211(11)(a) above;

(c) Overnight stays for adult programs primarily for individuals over twenty-one years of age, not including staff, shall not exceed 10% of the total camper nights offered by the youth camp;

(d) A campground as described in ORS 215.213(2)(c) above shall not be established in conjunction with a youth camp;

(e) A youth camp shall not be allowed in conjunction with an existing golf course;

(f) A youth camp shall not interfere with the exercise of legally established water rights on adjacent properties;

(g) A youth camp shall be located on a lawful parcel that is:

(i) Suitable to provide a forested setting needed to ensure a primarily outdoor experience without depending upon the use or natural characteristics of adjacent and nearby public and private land. This determination shall be based on the size, topography, geographic features and any other characteristics of the proposed site for the youth camp, as well as, the number of overnight participants and type and number of proposed facilities. A youth camp shall be located on a parcel containing at least 40 acres;

(ii) Suitable to provide a protective buffer to separate the visual and audible aspects of youth camp activities from other nearby and adjacent lands. The buffers shall consist of forest vegetation, topographic or other natural features as well as structural setbacks from adjacent public and private lands, roads, and riparian areas. The structural setback from roads and adjacent public and private property shall be 250 feet unless the governing body, or its designate sets a different setback based upon the following criteria that may be applied on a case-by-case basis:

(aa) The proposed setback will prevent conflicts with commercial resource management practices;

(bb) The proposed setback will prevent a significant increase in safety hazards associated with vehicular traffic; and

(cc) The proposed setback will provide an appropriate buffer from visual and audible aspects of youth camp activities from other nearby and adjacent resource lands.

(iii) Suitable to provide for the establishment of sewage disposal facilities without requiring a sewer system as defined in OAR 660-011-0060(1)(f). Prior to granting final approval, the Approval Authority shall verify that a proposed youth camp will not result in the need for a sewer system.

(h) A youth camp may provide for the following facilities:

(i) Recreational facilities limited to passive improvements, such as open areas suitable for ball fields, volleyball courts, soccer fields, archery or shooting ranges, hiking and biking trails, horse back riding or swimming that can be provided in conjunction with the site's natural environment. Intensively developed facilities such as tennis courts, gymnasiums, and golf courses shall not be allowed. One swimming pool may be allowed if no lake or other water feature suitable for aquatic recreation is located on the subject property or immediately available for youth camp use;

(ii) Primary cooking and eating facilities shall be included in a single building. Except in sleeping quarters, the governing body, or its designate, may allow secondary cooking and eating facilities in one or more buildings designed to accommodate other youth camp activities. Food services shall be limited to the operation of the youth camp and shall be provided only for youth camp participants. The sale of

individual meals may be offered only to family members or guardians of youth camp participants;

(iii) Bathing and laundry facilities except that they shall not be provided in the same building as sleeping quarters;

(iv) Up to three camp activity buildings, not including primary cooking and eating facilities;

(v) Sleeping quarters including cabins, tents or other structures. Sleeping quarters may include toilets, but, except for the caretaker's dwelling, shall not include kitchen facilities. Sleeping quarters shall be provided only for youth camp participants and shall not be offered as overnight accommodations for persons not participating in youth camp activities or as individual rentals;

(vi) Covered areas that are not fully enclosed;

(vii) Administrative, maintenance and storage buildings; permanent structure for administrative services, first aid, equipment and supply storage, and for use as an infirmary if necessary or requested by the applicant;

(viii) An infirmary may provide sleeping quarters for the medical care provider, (e.g. Doctor, Registered Nurse, Emergency Medical Technician, etc.);

(ix) A caretaker's residence may be established in conjunction with a youth camp if no other dwelling exists on the subject property.

(i) A proposed youth camp shall comply with the following fire safety requirements:

(i) The fire siting standards in LC 16.211(8)(c) and (e) above;

(ii) A fire safety protection plan shall be developed for each youth camp that includes the following:

(aa) Fire prevention measures;

(bb) On site pre-suppression and suppression measures; and

(cc) The establishment and maintenance of fire safe area(s)

in which camp participants can gather in the event of a fire.

(iii) Except as determined under LC 16.211(11)(i)(iv) below, a youth camp's on-site fire suppression capability shall at least include:

(aa) A 1,000-gallon mobile water supply that can access all areas of the camp; and

(bb) A 30-gallon-per-minute water pump and an adequate amount of hose and nozzles; and

(cc) A sufficient number of fire fighting hand tools; and

(dd) Trained personnel capable of operating all fire suppression equipment at the camp during designated periods of fire danger.

(iv) An equivalent level of fire suppression facilities may be determined by the Approval Authority. The equivalent capability shall be based on the Oregon Department of Forestry's (ODF) Wildfire Hazard Zone rating system, the response time of the effective wildfire suppression agencies, and consultation with ODF personnel if the camp is within an area protected by the Oregon Department of Forestry and not served by a local structural fire protection provider;

(v) The provisions of LC 16.211(11)(i)(iv) above may be waived by the Approval Authority if the youth camp is located in an area served by a structural fire protection provider and that provider informs the governing body in writing that on-site fire suppression at the camp is not needed.

(j) The Approval Authority shall require as a condition of approval of a youth camp, that the land owner of the youth camp sign and record in the deed records for the county a document binding the land owner, or operator of the youth camp if different from the owner, and the land owner's or operator's successors in interest,

prohibiting them from pursuing a claim for relief or cause of action alleging injury from farming or forest practices for which no action or claim is allowed under ORS 30.936 or 30.937.

(12) Telecommunication Facilities. Telecommunication facilities are allowed subject to compliance with the requirements of LC 16.264 and with applicable requirements elsewhere in LC Chapter 16 including but not necessarily limited to: the riparian vegetation protection standards in LC 16.253; Floodplain Combining Zone (LC 16.244); Willamette Greenway Development Permits (LC 16.254); the Coastal Resource Management Combining Zones (LC 16.234, 16.235, 16.236, 16.237, 16.238, 16.239, 16.240, 16.241, 16.242, or 16.243); Federal or State of Oregon inventories and regulations applicable to delineated wetlands and waters of the nation or state; the Commercial Airport Safety Combining Zone (LC 16.245) and the Airport Safety Combining Zone (LC 16.246); and the Sensitive Bird Habitat protection Standards and Criteria in LC 16.005(4).

**EXCLUSIVE FARM USE ZONE (E-RCP)
RURAL COMPREHENSIVE PLAN**

16.212 Exclusive Farm Use Zone (E-RCP).

(1) Purpose. The purposes of the Exclusive Farm Use (E-RCP) Zone are:

(a) To preserve open land for agricultural use as an efficient means of conserving natural resources that constitute an important physical, social, aesthetic and economic asset to the people of Lane County and the state of Oregon, whether living in rural, urban, or metropolitan areas;

(b) To preserve the maximum amount of the limited supply of agricultural land in large blocks in order to conserve Lane County's economic resources and to maintain the agricultural economy of Lane County and the state of Oregon for the assurance of adequate, healthful and nutritious food for the people of Lane County, the state of Oregon, and the nation;

(c) To substantially limit the expansion of urban development into rural areas because of the unnecessary increases in costs of community services, conflicts between farm and urban activities and the loss of open space and natural beauty around urban centers occurring as the result of such expansion;

(d) To provide incentives for owners of rural lands to hold such lands in the exclusive farm use zone because of the substantial limits placed on the use of these lands and the importance of these lands to the public; and

(e) To identify and protect high value farm land in compliance with OAR 660 Division 33.

"Reconfigured" means any change in the boundary of the lot, parcel or tract.

(c) Dwelling. "Dwelling" means a "Dwelling, Single-Family" as defined by LC 16.090 and may include a manufactured dwelling. "Manufactured dwelling" and "manufactured home" shall have the meaning set forth in ORS 446.003(26).

(6) Allowable Residential Uses On High Value Farmland. The following residential uses are allowed on high value farm land subject to the general provisions and exceptions specified by this chapter of Lane Code and subject to prior submittal of an application pursuant to LC 14.050, and approval of the application by the Director pursuant to LC 14.100 with the options to conduct a hearing or to provide written notice of the decision and an opportunity for appeal. Final approval of a non-farm use authorized under LC 16.212(6) below shall not be given unless any additional taxes imposed on the change in use have been paid.

(a) A dwelling customarily provided in conjunction with farm use is allowed subject to compliance with the following requirements:

(i) The subject tract is currently employed for the farm use, as defined in LC 16.090, that produced at least \$80,000 in gross annual income from the sale of farm products in the last two years or three of the last five years;

(ii) Except as permitted in ORS 215.213(1)(r)(1999 Edition) for seasonal farm worker housing, there is no other dwelling on lands zoned E-RCP owned by the farm operator or on the farm operation;

(iii) The dwelling will be occupied by a person or persons who produced the commodities which grossed the income in LC 16.212(6)(a)(ii) above;

(iv) In determining the gross income required by LC 16.212(6)(a)(i) above, the cost of purchased livestock shall be deducted from the total gross income attributed to the farm operation. Only gross income from land owned, not leased or rented, shall be counted. Gross income earned from a lot or parcel which has been used previously to qualify another lot or parcel for the construction or siting of a primary farm dwelling may not be used. For the purpose of LC 16.212(6)(b)(iv), parcels zoned E-RCP in Lane County or for farm use in counties contiguous with Lane County, not including Deschutes County or Klamath County, may be used to complete the gross income requirements; and

(v) LC 16.212(10)(h) and (i) below.

(b) An "accessory farm dwelling" includes all types of residential structures allowed by applicable state building codes and is allowed subject to compliance with the following requirements:

(i) The accessory farm dwelling will be occupied by a person or persons who will be principally engaged in the farm use of the land and whose seasonal or year-round assistance in the management of the farm use such as planting, harvesting, marketing or caring of livestock, is or will be required by the farm operator;

(ii) The accessory farm dwelling will be located:

(aa) On the same lot or parcel as the primary farm dwelling;

or

(bb) On the same tract as the primary farm dwelling when the lot or parcel on which the accessory farm dwelling will be sited is consolidated into a single parcel with all other contiguous lots and parcels in the tract; or

(cc) On a lot or parcel on which the primary farm dwelling is not located, when the accessory farm dwelling is:

(A) Limited to only a manufactured dwelling with a deed restriction. The deed restriction shall be filed in the Lane County deed records and require the manufactured dwelling to be removed when the lot or parcel is conveyed to another party. The manufactured dwelling may remain if it is re-approved pursuant to LC 16.212(6)(b) above; or

(B) Limited to only attached multi-unit residential structures allowed by the applicable state building code or similar types of farm labor housing as existing farm labor housing or the farm operation registered with the Department of Consumer and Business Services, Oregon Occupational Safety and Health Division under ORS 658.750. Lane County shall require all accessory dwellings approved under LC 16.212(6)(b)(ii)(cc)(B) above to be removed, demolished, or converted to a non-residential use when farm worker housing is no longer required; or

(C) Located on a lot or parcel at least the size of the applicable minimum lot size under LC 16.212(9)(a) below and the lot or parcel complies with the gross farm income requirements in LC 16.212(6)(a) above.

(iii) There is no other dwelling on the lands designated for exclusive farm use owned by the farm operator that is vacant or currently occupied by persons not working on the subject farm or ranch and that could reasonably be used as an accessory farm dwelling;

(iv) The primary farm dwelling to which the proposed dwelling would be accessory:

(aa) Is located on a farm or ranch operation that is currently employed for farm use, as defined in LC 16.090, and produced at least \$80,000 in gross annual income from the sale of farm products in the last two years or three of the last five years. In determining the gross income, the cost of purchased livestock shall be deducted from the total gross income attributed to the tract; or

(bb) Is located on a commercial dairy farm. A "commercial dairy farm" is a dairy operation that owns a sufficient number of producing dairy animals capable of earning the gross income required by LC 16.212(6)(b)(iv)(aa) above from the sale of fluid milk, and:

(A) The building permits, if required, have been issued and construction has begun or been completed for the building and animal waste facilities required for a commercial dairy farm; and

(B) The Oregon Department of Agriculture has approved a permit for a "confined animal feeding operation" under ORS 468B.050 and ORS 468B.200 to 468B.230, and a producer license for the sale of dairy products under ORS 621.072.

(v) Lane County shall not approve any proposed division of a lot or parcel for an accessory farm dwelling approved pursuant to LC 16.212(6)(d) above. If it is determined that an accessory farm dwelling satisfies the requirements of a dwelling customarily provided in conjunction with farm use pursuant to LC 16.212(6)(a) above, a parcel may be created consistent with the minimum parcel size requirements in LC 16.212(9) below;

(vi) An accessory farm dwelling approved pursuant to LC 16.212(6)(b) above cannot later be used to satisfy the requirements for a dwelling not provided in conjunction with farm use pursuant to LC 16.212(6)(c) or (d) below; and

(vii) LC 16.212(10)(h) and (i) below.

(c) For land located on the east side of the summit of the Coastal Range, a single family dwelling not provided in conjunction with farm use is allowed subject to compliance with the following requirements:

(i) LC 16.212(10)(f) through (h) below;

(ii) The dwelling will be sited on a lot or parcel that is predominantly composed of Class IV through VIII soils that would not, when irrigated, be classified as prime, unique, Class I or II soils;

(iii) The dwelling will be sited on a lot or parcel created before January 1, 1993. See the definition of "Date of Creation and Existence" in LC 16.212(2)(b) above;

(iv) The dwelling will not materially alter the stability of the overall land use pattern of the area. In determining whether a proposed non-farm dwelling will alter the stability of the land use pattern in the area, the accumulative impact of possible new non-farm dwellings and parcels on other lots or parcels in the area similarly situated shall be considered. To address this standard, the following requirements shall be met:

(aa) Identify a study area for the cumulative impacts analysis. The study area shall include at least 2,000 acres or a smaller area not less than 1,000 acres, if the smaller area is a distinct agricultural area based on topography, soil types, land use pattern, or the type of farm or ranch operations or practices that distinguish it from other, adjacent agricultural areas. Findings shall describe the study area, its boundaries, the location of the subject parcel within this area, why the selected area is representative of the land use pattern surrounding the parcel and is adequate to conduct the analysis required by this standard. Lands zoned for rural residential or urban or non-resource uses shall not be included in the study area;

(bb) Identify within the study area the broad types of farm uses (irrigated or non-irrigated crops, pasture or grazing lands), the number, location and type of existing dwellings (farm, non-farm, hardship, etc.), and the dwelling development trends since 1993. Determine the potential number of non-farm dwellings that could be approved under LC 16.212(6)(c) above and under LC 16.212(7)(f) and (g) below, including the identification of predominant soil classifications, the parcels created prior to January 1, 1993, and the parcels larger than the minimum lot size that may be created for new parcels for non-farm dwellings under LC 16.212(9)(d) below. The findings shall describe the existing land use pattern of the study area including the distribution and arrangement of existing uses and the land use pattern that could result from approval of the possible non-farm dwellings under LC 16.212(6)(c) above and LC 16.212(7)(f) and (g) below;

(cc) Determine whether the approval of the proposed non-farm dwellings will materially alter the stability of the land use pattern in the area. The stability of the land use pattern will be materially altered if the cumulative effect of existing and potential non-farm dwellings will make it more difficult for the existing types of farms in the area to continue operations due to diminished opportunities to expand, purchase of lease farmland, acquire water rights or diminish the number of tracts or acreage in farm use in a manner that will destabilize the overall character of the study area;

(v) The dwelling complies with such other conditions as the Approval Authority considers necessary; and

(vi) Land use approval of a permit described in LC 16.212(6)(c) above shall be valid for four years from the date of the approval. Notwithstanding the requirements in LC 14.700(2)(d)(ii) and (iii), an application for a two year extension of

the timelines for the permit approval described in LC 16.212(6)(c)(vi) above may be made and approved pursuant to LC 14.700(2).

(d) For land located west of the summit of the Coast Range, a single family dwelling not provided in conjunction with farm use is allowed subject to compliance with the following requirements:

(i) LC 16.212(10)(f) through (h) below;

(ii) The dwelling is situated upon a lot or parcel, or a portion of a lot or parcel, that is generally unsuitable land for the production of farm crops and livestock or merchantable tree species, considering the terrain, adverse soil or land conditions, drainage and flooding, vegetation, location and size of the tract. A lot or parcel shall not be considered unsuitable solely because of size or location if it can reasonably be put to farm or forest use in conjunction with other land and:

(aa) A lot or parcel shall not be considered "generally unsuitable" simply because it is too small to be farmed profitably by itself. If a lot or parcel can be sold, leased, rented or otherwise managed as a part of a commercial farm or ranch, it is not "generally unsuitable." A lot or parcel is presumed to be suitable if it is composed predominantly of Class I-IV soils. Just because a lot or parcel is unsuitable for one farm use does not mean it is not suitable for another farm use; or

(bb) If the parcel is under forest assessment, the dwelling shall be situated upon generally unsuitable land for the production of merchantable tree species recognized by the Forest Practices Rules, considering the terrain, adverse soil or land conditions, drainage and flooding, vegetation, location and size of the parcel. If a lot or parcel is under forest assessment, the area is not "generally unsuitable" simply because it is too small to be managed for forest production profitably by itself. If a lot or parcel under forest assessment can be sold, leased, rented or otherwise managed as a part of a forestry operation, it is not "generally unsuitable". If a lot or parcel is under forest assessment, it is presumed suitable if it is composed predominantly of soils capable of producing 50 cubic feet of wood fiber per acre per year. If a lot or parcel is under forest assessment, to be found compatible and not seriously interfere with forest uses on surrounding land it must not force a significant change in forest practices or significantly increase the cost of those practices on the surrounding land;

(iii) The dwelling will not alter the stability of the overall land use pattern of the area. In determining whether a proposed non-farm dwelling will alter the stability of the land use pattern in the area, consideration shall be given to the cumulative impact of non-farm dwellings on other lots or parcels in the area similarly situated by applying the standards in LC 16.212(6)(c)(iv)(aa) through (cc) above;

(iv) The dwelling complies with such other conditions as the Approval Authority considers necessary; and

(v) Land use approval of a permit described in LC 16.212(6)(d) above shall be valid for four years from the date of the approval. Notwithstanding the requirements in LC 14.700(2)(d)(ii) and (iii), an application for a two year extension of the timelines for the permit approval described in LC 16.212(6)(d)(v) above may be made and approved pursuant to LC 14.700(2).

(e) A dwelling customarily provided in conjunction with a commercial dairy farm that complies with these requirements:

(i) As used in LC 16.212(6)(e) above, a "commercial dairy farm" is a dairy operation that owns a sufficient number of producing dairy animals capable of earning at least \$80,000 in gross annual income from the sale of fluid milk;

(ii) The dwelling will be occupied by a person or persons who will be principally engaged in the operation of the commercial dairy farm, such as the feeding,

milking or pasturing of the dairy animals or other farm use activities necessary for the operation of the commercial dairy farm;

(iii) The building permits, if required, have been issued for or construction has begun for the buildings and animal waste facilities required for a commercial dairy farm;

(iv) The Oregon Department of Agriculture has approved the following:

(aa) A permit for a "confined animal feeding operation" under ORS 468B.050 and ORS 468B.200 through 468B.230; and

(bb) A Producer License for the sale of dairy products under ORS 621.072;

(v) The subject tract will be employed as a commercial dairy as defined by LC 16.212(6)(e)(i) above;

(vi) The dwelling is sited on the same lot or parcel as the buildings required by the commercial dairy;

(vii) Except as allowed by ORS 215.213(r) (1999 edition), there is no other dwelling on the subject tract; and

(viii) LC 16.212(10)(h) and (i) below.

(f) A dwelling customarily provided in conjunction with farm use is allowed subject to compliance with these requirements:

(i) Within the previous two years, the applicant owned a farm or ranch operation that earned \$80,000 in gross annual income from the sale of farm products in the last five years or four of the last seven years;

(ii) In determining the gross income required by LC 16.212(6)(f)(i) above:

(aa) The cost of purchased livestock shall be deducted from the total gross income attributed to the tract; and

(bb) Only gross income from land owned, not leased or rented, shall be counted;

(iii) The subject lot or parcel on which the dwelling will be located is:

(aa) Currently employed for farm use, as defined in LC 16.090, that produced \$80,000 in gross farm income in the last two years or three of the last five years; and

(bb) At least the size of the applicable minimum lot size under LC 16.212(9)(a);

(iv) Except as permitted in ORS 215.213(1)(r) (1999 Edition), there is no other dwelling on the subject tract;

(v) The dwelling will be occupied by a person or persons who produced the commodities which gross the income in LC 16.212(6)(f)(iii)(aa) above; and

(vi) LC 16.212(10)(h) and (i) below.

(7) Allowable Residential Uses On Land That Is Not High Value Farmland.

The following residential uses are allowed on land that is not high value farm land subject to the general provisions and exceptions specified by this Chapter of Lane Code and subject to prior submittal of an application pursuant to LC 14.050, approval of the application pursuant to LC 14.100 with the options for the Director to conduct a hearing or to provide written notice of the decision and an opportunity for appeal. Final approval of a non-farm use authorized under LC 16.212(7) below shall not be given unless any additional taxes imposed on the change in use have been paid.

(a) A "160 acre parcel" dwelling customarily provided in conjunction with farm use is allowed subject to compliance with the following requirements:

(i) The parcel on which the dwelling is located is at least 160 acres and not designated as rangeland;

(ii) Except as permitted pursuant to LC 16.212(5)(f) above, there is no other dwelling on the subject tract;

(iii) The subject tract is currently employed for farm use as defined in LC 16.090;

(iv) The dwelling will be occupied by a person or persons who will be principally engaged in the farm use of the land, such as planting, harvesting, marketing or caring for livestock, at a commercial scale; and

(v) LC 16.212(10)(h) below.

(b) A dwelling customarily provided in conjunction with farm use is allowed subject to compliance with the following requirements:

(i) The subject tract is currently employed for farm use that produced in the last two years or three of the last five years \$32,500 in gross annual income (the midpoint of the median income range of gross annual sales of farms in Lane County with annual sales of \$10,000 or more according to the 1992 Census of Agriculture, Oregon) from the sale of farm products. In determining the gross income required by this subsection, the cost of purchased livestock shall be deducted from the total gross income attributed to the farm operation. Only gross income from land owned, not leased or rented, shall be counted. Gross income earned from a lot or parcel which has been used previously to qualify another lot or parcel for the construction or siting of a primary farm dwelling may not be used. For the purpose of LC 16.212(7)(b)(i), parcels zoned E-RCP in Lane County or for farm use in counties contiguous with Lane County, not including Deschutes County or Klamath County, may be used to meet the gross income requirements;

(ii) The dwelling will be occupied by a person or persons who produced the commodities which grossed the income mentioned in LC 16.212(7)(b)(i) above;

(iii) Except as permitted in ORS 215.213(1)(r)(1999 Edition), there is no other dwelling on lands zoned E-RCP owned by the farm operator or on the farm operation;

(iv) The dwelling will be located on a lot or parcel that is not less than ten (10) acres; and

(vi) LC 16.212(10)(h) and (i) below.

(c) A dwelling in conjunction with farm use or the propagation or harvesting of a forest product on a lot or parcel that is managed as part of a farm operation or woodlot is allowed subject to compliance with the following requirements:

(i) The farm operation or woodlot:

(aa) Consists of 20 or more acres; and

(bb) Is not smaller than the average farm or woodlot in Lane County producing at least \$2,500 in annual gross income from the crops, livestock or forest products to be raised on the farm operation or woodlot;

(ii) The lot or parcel where the farm operation or woodlot is located does not have any dwellings on it; and

(iii) LC 16.212(10)(f) through (i) below.

(d) A dwelling in conjunction with farm use or the propagation or harvesting of a forest product on a farm operation or woodlot that is smaller than required under LC 16.212(7)(d) above is allowed subject to compliance with the following requirements:

(i) The farm operation or woodlot is smaller than the size of the farm operation or woodlot required in LC 16.212(7)(c)(i) above;

- (ii) The lot or parcel where the dwelling will be located:
 - (aa) Is managed as part of the farm operation or woodlot described in LC 16.212(7)(d)(i) above;
 - (bb) Has produced at least \$20,000 in annual gross farm income in two consecutive calendar years out of the three calendar years before the year in which the application for the dwelling was made or is planted in perennials capable of producing upon harvest an average of at least \$20,000 in annual gross farm income; or
 - (cc) Is a woodlot capable of producing an average over the growth cycle of \$20,000 in gross annual income; and
 - (iii) LC 16.212(10)(f) through (h) below.
- (e) An "accessory farm dwelling" includes all types of residential structures allowed by applicable state building codes and is allowed subject to compliance with the following requirements:
 - (i) The accessory farm dwelling will be occupied by a person or persons who will be principally engaged in the farm use of the land and whose seasonal or year-round assistance in the management of the farm use such as planting, harvesting, marketing, or caring for livestock, is or will be required by the farm operator;
 - (ii) The accessory farm dwelling will be located on the same lot or parcel as the primary farm dwelling; or
 - (iii) The accessory farm dwelling will be located on:
 - (aa) The same tract as the primary farm dwelling when the lot or parcel on which the accessory farm dwelling will be sited is consolidated into a single parcel with all other contiguous lots and parcels in the tract; or
 - (bb) A lot or parcel on which the primary farm dwelling is not located, when the accessory farm dwelling is:
 - (A) Limited to only a manufactured dwelling with a deed restriction. The deed restriction shall be filed in the Lane County deed records and require the manufactured dwelling to be removed when the lot or parcel is conveyed to another party. The manufactured dwelling may remain if it is re-approved pursuant to LC 16.212(7)(e) above; or
 - (B) Limited to only attached multi-unit residential structures allowed by the applicable state building code or similar types of farm labor housing as existing farm labor housing or the farm operation registered with the Department of Consumer and Business Services, Oregon Occupational Safety and Health Division under ORS 658.750. Lane County shall require all accessory dwellings approved under LC 16.212(7)(e)(iii)(bb)(B) above to be removed, demolished or converted to a nonresidential use when farm worker housing is no longer required; or
 - (C) Located on a lot or parcel at least the size of the applicable minimum lot size under LC 16.212(9)(a) below and the lot or parcel complies with the gross farm income requirements in LC 16.212(7)(b) above.

 - (v) The primary farm dwelling to which the proposed dwelling would be accessory:
 - (aa) Is located on a farm or ranch operation that is currently employed for farm use, as defined in LC 16.090, and produced at least \$32,500 (the midpoint of the median income range of gross annual sales of farms in Lane County with annual sales of \$10,000 or more according to the 1992 Census of Agriculture, Oregon) in gross annual income from the sale of farm products in the last two years or three of the

last five years. In determining the gross income, the cost of purchased livestock shall be deducted from the total gross income attributed to the tract; or

(bb) Is located on a commercial dairy farm. A "commercial dairy farm" is a dairy operation that owns a sufficient number of producing dairy animals capable of earning the gross annual income required by LC 16.212(7)(b) above from the sale of fluid milk; and

(A) The building permits, if required, have been issued and construction has begun or been completed for the buildings and animal waste facilities required for a commercial dairy farm; and

(B) The Oregon Department of Agriculture has approved a permit for a "confined animal feeding operation" under ORS 463B.050 and ORS 468B.200 to 468B.230 and a producer license for the sale of dairy products under ORS 621.072; or

(cc) Is located on a farm operation that meets the standards and requirements of LC 16.212(7)(c) or (d) above.

(vi) Lane County shall not approve any proposed division of a lot or parcel for an accessory farm dwelling approved pursuant to LC 16.212(7)(e). If it is determined that an accessory farm dwelling satisfies the requirements of a dwelling customarily provided in conjunction with farm use pursuant to LC 16.212(7)(b) above, a parcel may be created consistent with the minimum parcel size requirements in LC 16.212(9) below;

(vii) An accessory farm dwelling approved pursuant to LC 16.212(7)(e) above cannot later be used to satisfy the requirements for a dwelling not provided in conjunction with farm use pursuant LC 16.212(7)(f) below; and

(viii) LC 16.212(10)(h) below.

(f) A dwelling not provided in conjunction with farm use is allowed subject to compliance with the following requirements:

(ii) LC 16.212(10)(f) through (h) below;

(iii) The dwelling is situated upon generally unsuitable land for the production of farm crops and livestock, considering the terrain, adverse soil or land conditions, drainage and flooding, location and size of the tract. A lot or parcel will not be considered unsuitable solely because of its size or location if it can reasonable be put to farm use in conjunction with other land;

(iv) Land use approval of a permit described in LC 16.212(7)(f) above shall be valid for four years from the date of the approval. Notwithstanding the requirements in LC 14.700(2)(d)(ii) and (iii), an application for a two year extension of the timelines for the permit approval described in LC 16.212(7)(f)(iv) above may be made and approved pursuant to LC 14.700(2); and

(v) The dwelling shall comply with such other conditions as the Approval Authority considers necessary.

(g) One dwelling not provided in conjunction with farm use, on a lot or parcel that is not larger than three acres provided it complies with these requirements:

(i) The lot or parcel does not have a single family or multiple family dwelling on it;

(ii) If the lot or parcel is located within the Willamette Greenway, a floodplain or a geological hazard area, the dwelling complies with conditions imposed

by Lane Code relating specifically to the Willamette Greenway, floodplains or geological hazard areas, whichever is applicable;

(iii) The lot or parcel was created between January 1, 1948, and July 1, 1983. See the definition of "Date of Creation and Existence" in LC 16.212(2)(b) above. For the purpose of LC 16.212(7)(g)(iii) above, only one lot or parcel exists if:

(aa) The lot or parcel is contiguous to one or more lots or parcels described in LC 16.212(7)(g)(iii)(aa). "Contiguous" means "lots, parcels or lots and parcels that have a common boundary, including but not limited to, lots, parcels or lots and parcels separated only by a public road"; and

(bb) On July 1, 1983, greater than possessory interests are held in those contiguous lots, parcels or lots and parcels by the same person, spouses or a single partnership or business entity, separately or in tenancy in common;

(iv) LC 16.212(10)(f) through (h) below;

(v) Notice and review of an application under LC 16.212(7)(g) above shall occur in compliance with LC 14.160;

(vi) Land use approval of a permit described in LC 16.212(7)(g) above shall be valid for four years from the date of the approval. Notwithstanding the requirements in LC 14.700(2)(d)(ii) and (iii), an application for a two year extension of the timelines for the permit approval described in LC 16.212(7)(g)(vi) above may be made and approved pursuant to LC 14.700(2); and

(vii) The dwelling complies with other conditions considered necessary by the Approval Authority.

(h) A dwelling customarily provided in conjunction with a commercial dairy farm that complies with these requirements:

(i) As used in LC 16.212(7)(h) above, a "commercial dairy farm" is a dairy operation that owns a sufficient number of producing dairy animals capable of earning at least \$32,500 (the mid point of the median income range of gross annual sales of farms in Lane County with annual sales of \$10,000 or more according to the 1992 Census of Agriculture, Oregon) in gross annual income from the sale of fluid milk;

(ii) The dwelling will be occupied by a person or persons who will be principally engaged in the operation of the commercial dairy farm, such as the feeding, milking or pasturing of the dairy animals or other farm use activities necessary for the operation of the commercial dairy farm;

(iii) The building permits, if required, have been issued for or construction has begun for the buildings and animal waste facilities required for a commercial dairy farm;

(iv) The Oregon Department of Agriculture has approved the following:

(aa) A permit for a "confined animal feeding operation" under ORS 468B.050 and ORS 468B.200 through 468B.230; and

(bb) A Producer License for the sale of dairy products under ORS 621.072;

(v) The subject tract will be employed as a commercial dairy as defined by LC 16.212(7)(h)(i) above;

(vi) The dwelling is sited on the same lot or parcel as the buildings required by the commercial dairy;

(vii) Except as allowed by ORS 215.213(1)(r) (1999 Edition), there is no other dwelling on the subject tract; and

(viii) LC 16.212(10)(h) and (i) below.

(i) A dwelling customarily provided in conjunction with farm use is allowed subject to compliance with these requirements:

(i) Within the previous two years, the applicant owned a farm or ranch operation that earned \$32,500 in gross annual income from the sale of farm products in the last five years or four of the last seven years;

(ii) In determining the gross income required by LC 16.212(7)(i)(i) above:

(aa) The cost of purchased livestock shall be deducted from the total gross income attributed to the tract; and

(bb) Only gross income from land owned, not leased or rented, shall be counted;

(iii) The subject lot or parcel on which the dwelling will be located is:

(aa) Currently employed for farm use, as defined in LC 16.090, that produced \$32,500 in gross farm income in the last two years or three of the last five years; and

(bb) At least the size of the applicable minimum lot size under LC 16.212(9)(a);

(iv) Except as permitted in ORS 215.213(1)(r) (1999 Edition), there is no other dwelling on the subject tract;

(v) The dwelling will be occupied by a person or persons who produced the commodities which gross the income in LC 16.212(7)(i)(iii)(aa) above; and

(vi) LC 16.212(10)(h) and (i) below.

(8) Farm Operations.

(a) A farm operation is all agricultural activities occurring under a single management. For purposes of this section, it is immaterial whether the activities occur on a single parcel of land, on contiguous parcels of land or on separate parcels of land. It is also immaterial if the operator has less than fee interest in the land on which the agricultural activity occurs.

(b) Farm operations shall be classified into one of the groups set forth in LC 16.212(8)(d) below. In the event a farm operation consists of agricultural activities described by more than one group, the activity that accounts for more than half of the gross revenue of the farm operation shall determine the group classifications.

(c) Farm operations of a size equal to or greater than the size shown for its respective group in LC 16.212(8)(d) below shall be deemed as contributing in a substantial way to the agricultural economy of the County.

<u>Farm Group</u>	<u>Size</u>

Field crops (includes grass seed production).....	160 acres
Tree fruit and nuts.....	40 acres
Horticultural specialties	20 acres
General farm, primarily crop	320 acres
