County Comprehensive Plan**

## Appendix A: Acronyms

AASHTO	American Association of State Highway and Transportation Officials
ADA	Americans with Disabilities Act
ADT	Average Daily Traffic
AOC	Association of Oregon Counties
APWA	American Public Works Association
BNSF	Burlington Northern Santa Fe Railroad
BRT	Bus Rapid Transit
CBE	Crushed Base Equivalent (pertaining to pavement structure)
CIP	Capital Improvement Program
CWA	Clean Water Act
DLCD	Department of Land Conservation and Development
EPCT	Eugene to Pacific Crest Trail
EFU	Exclusive Farm Use zone
F-2	Impacted Forest zone
FHWA	Federal Highway Administration
FY	Fiscal Year
HCM	Highway Capacity Manual
ISTEA	Intermodal Surface Transportation Efficiency Act
LC	Lane Code
LCDC	Land Conservation and Development Commission
LCOG	Lane Council of Governments
LCPC	Lane County Planning Commission
LM	Lane Manual
LMD	(Lane County Public Works) Land Management Division
LOS	Level of Service
LTD	Lane Transit District
MSA	Metropolitan Statistical Area (U.S. Census)
MUTCD	Manual On Uniform Traffic Control Devices
NPDES	National Pollutant Discharge Elimination System program
OAR	Oregon Administrative Rule
ODA	Oregon Department of Aviation
ODOT	Oregon Department of Transportation
OHP	Oregon Highway Plan
ORS	Oregon Revised Statutes
PCI	Pavement Condition Index
PIP	Public Involvement Plan
RAC	(Lane County) Roads Advisory Committee
RLID	Regional Land Information Database
ROW, R/W	Right-of-Way
SDC	System Development Charge
STAC	Special Transportation Advisory Committee
STF	Special Transportation Funds for the Elderly and Disabled
STIP	State Transportation Improvement Plan
STP	Special Transportation Program
TDM	Transportation Demand Management
TEA-21	Transportation Efficiency Act for the 21 <sup>st</sup> Century
TIA	Traffic Impact Analysis
TPR	Transportation Planning Rule
TRB	Transportation Research Board of the National Research Council
TSP	Transportation System Plan
UGB	Urban Growth Boundary
USACE	U.S. Army Corps of Engineers
V/C	Volume to Capacity (Ratio)
VMT	Vehicle Miles Traveled

## Appendix B: County Roads Inventory

The Inventory in Appendix B represents the County Road system at the time this document was adopted. It is essentially a snapshot in time, and all data included in the inventory is subject to change.

### LEGEND

- Road ID** – Road number assigned to the road segment by Lane County
- Road Name** – Legal name of Road
- BMP** – Beginning Mile Post of road segment
- EMP** – Ending Mile Post of road segment
- Functional Class** – The classification of a road segment according to its expected level of service and function.
- Terrain** – The topography of the road segment. L=Level, R=Rolling, M=Mountainous.
- If a discrepancy exists with the Terrain data appearing in the inventory, the following terrain definitions shall prevail:
- a) **Roads where no 500' segment exceeds 5% in grade shall be considered Level.**
  - b) **Roads where any 500' segment exceeds 5% in grade but does not exceed 8% in grade shall be considered Rolling.**
  - c) **Roads where any 500' segment exceeds 8% in grade shall be considered Mountainous.**
- In **level terrain**, highway sight distance, as governed by both horizontal and vertical restrictions, is generally long or can be made to be so without construction difficulty or major expense.
  - In **rolling terrain**, natural slopes consistently rise above and below the road or street grade, and occasional steep slopes offer some restriction to normal horizontal and vertical roadway alignment.
  - In **mountainous terrain**, longitudinal and transverse changes in the elevation of the ground with respect to the road are abrupt, and benching and side hill excavation are frequently needed to obtain acceptable horizontal and vertical alignment.
- PCI** – Pavement Condition Index. A method of rating the surface condition of pavement on a scale of 0 to 100, where 100 is the best.
- CBE** - Crushed Base Equivalent. An indicator of the underlying structural integrity of the roadway expressed as an equivalent depth of crushed rock in inches.
- Width** - The measured width of roadway surface on identified segment.
- ADT Volume** - The most recently measured Average Daily Traffic volume expressed as number of vehicles per day.
