#### **16.233 Historic Structures or Sites Combining Zone (/H-RCP).**

(1) Purpose. By reason of having a special historical character, an association with historic events or persons, their antiquity, uniqueness or representative style of their architectural design or method of construction, Historic Structures or Sites are deserving of special consideration. This section is intended to allow the County to review building permits or demolition permits to ensure that these and other Historic Structures and Sites identified in the future are preserved.

(2) Permit Required. No person may alter or demolish any Historic Structure or Site, unless a permit to do so has been issued by the Department upon review in accordance with the provisions of this section.

(3) Issuance of Permits. An application for a permit to alter or demolish an Historic Structure or Site shall be made by the owner, or his or her authorized agent, in the same manner as provided for in this Chapter for any building permit. The application shall be referred to the Planning Director by the Building and Sanitation Division.

(4) Planning Director Review. Alteration of a Historic Structure or Site or demolition of a Historic Structure is allowed subject to prior submittal and approval of an application pursuant to Type II procedures of LC Chapter 14 and subject to compliance with the review criteria at LC 16.233(5) below. Prior to rendering a decision, notice of the application shall be given to the Lane County Museum Director and the Oregon State Historic Preservation Officer.

(A demonstrated lack of private and public funding for maintenance of a structure is sufficient cause to allow demolition.)

(b) A permit to alter a Historic Structure or Site shall be approved only upon submission of evidence that the following criteria are met:

(i) Any use or change of use of the building or property should be compatible with the historical nature of the property.

(ii) Only the minimum alteration of the Historic Structure or Site and its environment necessary to achieve the intended use shall be allowed. (Consideration shall be given to the development guidelines listed below.)

(a) Only the minimum alteration of the designated historic building, structure or site and its environment necessary to achieve the intended use should be allowed.

(b) The distinguishing original qualities or character of a designated building, structure or site and its environment should not be destroyed. The removal or alteration of any historical material or distinctive architectural features should be avoided.

(c) All designated buildings, structures and sites shall be recognized as products of their own time. Alterations which have no historical basis and which seek to create an earlier appearance should be discouraged.

(d) Changes which may have taken place in the course of time are evidence of the history and development of a building, structure or site and its environment. These changes may have acquired significance in their own right and this significance shall be recognized and respected. *(Revised by Ordinance No. 7-87, Effective 6.17.87; 6-10, 9.17.10; 19-03, 10.29.2019)*
