

LANE COUNTY PUBLIC WORKS

Decommissioned Septic Tank Certification

LAND MANAGEMENT DIVISION 3050 N. DELTA HWY, EUGENE, OR 97408

If you are connecting to an area-wide sewage collection system or you are replacing your septic tank, please don't forget to properly decommission your existing septic tank. An unattended and forgotten septic tank can become a serious hazard. Oregon regulations require you to properly decommission the septic tank as described below.

Oregon Administrative Rules (OAR) 340-71-185 Decommissioning of Systems.

- 1. The owner shall decommission a system when:
a. A sewerage system becomes available and the building sewer has been connected thereto, or
b. The source of sewage has been permanently eliminated.
2. Procedures for Decommissioning:
a. The tank(s), cesspool or seepage pit shall be pumped by a licensed sewage disposal service to remove all septage
b. The tank(s), cesspool or seepage pit shall be filled with reject sand, bar run gravel, or other material approved by the Agent, or the container shall be removed and properly disposed.

To ensure the above referenced standards are met, please complete this form and submit it to:

Lane County On-Site Wastewater Program
3050 N. Delta Hwy
